

Living peacefully together in Rode

The power of a local movement...

A number of OCMW and town council members pull together with other committed inhabitants of Rode for the municipality elections of October 14th 2024 in Accent 1640. As an independent movement Accent 1640 puts the population, the businesses and self-employed people upfront and continues working constructively in order to keep Rode a place where everybody feels at home.

Emphasis on:

* supporting the local community life

During the Covid crisis, Rode received €146,742 from the Flemish Government Crisis Fund for the cultural, youth and media sector. Upon explicit request of our current delegates the town council followed our distribution request of those funds, allowing the associations to receive €136,742 as opposed to the hardly €30,000 as initially introduced.

* good governance with politicians who show the way

In the middle of the energy crisis, a number of council members introduced a proposal to raise the attendance fees of the OCMW and town council members. Thanks to our heavy counter argumentation, this proposal was rejected. After all, one fulfills a political tenure out of commitment.

* positive collaboration for the good of all inhabitants of Rode

With know-how and tenacity we keep on joining forces rebuilding the new healthcare site, replacing the old nursing home. Moreover there will be multiple up to date assistant living units added, as well as a daycare center where parents will pay according to their income and affordable big family housing, all thanks to our positive support. In addition, the surroundings of that site will be accommodated so that Rode will treat itself to another downtown park.

* a well thought-out circulation plan

Needless to mention that Rode has a mobility problem. Experts of VIAS (the former Belgian Institute of Traffic Safety) are establishing a circulation plan thanks to our intervention so that incoherent cutting and pasting solutions on a couple of streets will end.

Accent 1640 is a local movement you can count on: independent, constructive and righteous.

Accent 1640 will make sure that all decisions will be financially viable and in the interest of all inhabitants
